

Asbestos Management Policy

DCE Electrical Leopard Controls is an ISO (9001, 14001, 45001) accredited company specialising in all facets of electrical, heating ventilation and air-conditioning (HVAC), and business management systems (BMS) including design, engineering, installation, maintenance and repair.

As part of our business operations, we routinely perform asbestos removal work for which we hold WorkSafe (WA) Restricted Asbestos License (WR953).

This Policy states DCE Electrical Leopard Controls commitment to the health, safety and well-being of our workers, subcontractors, clients, the greater community, and the environment about them by ensuring the safe and effective management of work activities that involve the interface with, handling, removal, transportation, and disposal of asbestos, and asbestos containing material (ACM) associated with our business operations. To meet the commitment of this Policy, DCE Electrical Leopard Controls will:

- Meet all legislative obligations and duties to which we are bound, and comply with all Australian standards, and codes of practice relevant to the management of asbestos
- Develop and maintain Asbestos Management Plans for the management of asbestos at premises owned by DCE Electrical Leopard Controls
- Identify, assess and mitigate asbestos and ACM risk associated with our business operations in accordance with the hierarchy of control
- Consult and communicate with workers, subcontractors, clients and the greater community with regards to asbestos related work activities that may impact on their health, safety and well-being, or impact the environment about them
- Provide training to our workers relevant to the asbestos and ACM related work activities being performed
- Provide appropriate personal protective equipment (PPE) to workers relevant to asbestos and ACM related work activities being performed
- Provide initial, and ongoing health monitoring to workers carrying out licensed asbestos work
- Conduct regular inspections and audits at workplaces where asbestos and ACM work is being performed, or the risk of asbestos or ACM is present
- Report and investigate all incidents and unplanned events arising from asbestos and ACM related work activities

Signed

Lindsay Dick: _____
Managing Director
